GDP (PPP) per Capita, Wikipedia (World Bank, IMF, and CIA), [https://en.wikipedia.org/wiki/List\\_of\\_countries\\_by\\_GDP\\_\(PPP\)\\_per\\_capita](https://en.wikipedia.org/wiki/List_of_countries_by_GDP_(PPP)_per_capita) (GDP = Gross Domestic Product, PPP = Purchasing Power Parity)

For GDP-PPP, if World Bank, IMF, and CIA numbers provided, used middle number. If only two of these sources provided numbers, chose one number based on this priority: World Bank, IMF, CIA. If only one number provided, used that one. Purchase power means the amount of goods or services that can be purchased with one unit of currency.
